STATISTICS

Piraeus, 7 April 2026

## **ANNOUNCEMENT**

ELSTAT informs users that it proceeds to the postponement of the Announcement on Commercial Transactions of Greece for the reference month February 2026.

This postponement is necessary, as for one of the main components of Commercial Transactions, exports to Third Countries, quality issues have been identified in the primary data used in their compilation.

In particular, ELSTAT has identified issues of completeness and accuracy in the new primary customs exports data it receives from the Independent Authority of Public Revenue (AADE), while these data are the main source for compiling statistics on exports to Third Countries. ELSTAT has initiated discussions with the competent services of AADE to resolve this matter.

It is noted that statistics on exports to Third Countries are compiled based on the customs declaration data of the new Automated Exports System (AES) that was progressively put into operation from 1 December 2025 by AADE.

ELSTAT will provide further information to users regarding the publication time of the postponed Announcement.
