COST OF LIVING STATISTICS DIVISION

ANNOUNCEMENT

The Hellenic Statistical Authority (ELSTAT), in its continuing strive to improve the accuracy of the housing cost estimates will enrich its statistical modeling utilizing data from the European Union Statistics on Income and Living Conditions (EU-SILC) survey.

Furthermore, starting this year, ELSTAT is introducing an on-site survey asking each household to register all relevant information.

Upon completion of the above procedures and implementing the European Statistics Code of Practice, ELSTAT will notify of any updates, if needed.
