This Special Service is responsible for the planning, coordination, elaboration of proposals and making recommendations for policies regarding the NSRF programmes of E.S.S.A.A. and E.S.S.A.AL and other co-financed programmes on issues under the competencies of the General Secretariat for Gender Equality, implemented in accordance with the rest of the provisions of paragraph 3 of Article 5 of Law 3614/2007 and it has the competency to manage the actions undertaken in accordance with Article 4 of Law 3614/2007, the management and control system and the principle of sound financial management.

### **Subject matter of the Memorandum of Understanding and Obligations of the contracting parties**

This Memorandum of Understanding (MoU) is intended to record the necessary actions and the framework of cooperation of the parties for the provision of statistical information regarding the compilation of statistics in the field of Gender Equality and the needs of the "Mechanism-Structure for Monitoring Gender Equality ", as well as the improvement and development of statistics on gender equality in the country in general.

Under this MoU the parties undertake the following obligations:

#### **1) OBLIGATIONS OF THE HELLENIC STATISTICAL AUTHORITY (ELSTAT):**

1. ELSTAT shall provide the General Secretariat for Gender Equality with data deriving from the surveys stipulated in the following paragraph, whose format and frequency are to be determined after the cooperation and proposal of officials of the General Secretariat for Gender Equality and of ELSTAT. The data transmission will start one month after the signing of this Memorandum, and in any case the data will be transmitted in a form that does not contradict the provisions on statistical confidentiality, stipulated in the national and European statistical legislation in force. The data will be provided to the GSGE strictly after the completion of the surveys and the publication of their results.
2. ELSTAT shall provide the General Secretariat for Gender Equality with data deriving from the following surveys:
  - Survey on Tertiary Education
  - Labour Force Survey (LFS)
  - Labour Force Survey, ad-hoc module on the reconciliation of family life and work (LFS, Ad-hoc 2010)
  - Survey on Income and Living Conditions (EU-SILC)
  - Structure of Earnings Survey in Enterprises (SES)
  - Adult Education Survey

- National Health Survey
- Survey on in-Patient Hospital Care
- Time Use Survey
- Survey on the Use of Information and Communication Technologies by households (ICT Survey)
- European System of integrated Social Protection Statistics (ESSPROS)
- Vital Statistics and Migration Statistics

in order for the GSGE to compile the indicators for the "Mechanism-Structure for Monitoring Gender Equality". The required data and the dimensions per survey are described in details in Annex I.

The data from these surveys of ELSTAT will be made available as final results over a period to be determined by the two parties for each survey.

3. The data set of ELSTAT shall be accompanied by all the necessary metadata in order to enhance their quality and to facilitate the exchange and dissemination to the final users.
4. The data must be made available electronically, preferably via web services, in a way that does not restrict their use and mainly their integration in a third party's IT systems. The format in which the data will be made available is presented in ANNEX II.
5. ELSTAT shall be responsible for ensuring the quality of the transmitted data in accordance with the principles of the European Statistics Code of Practice and the relevant European standards of quality assurance. In cases where the accuracy of data is not satisfactory, on account of the relatively small number of observations used for the reduction of data, no data will be displayed in the relevant cell which will be flagged with "Accuracy of data is not satisfactory."

**B) OBLIGATIONS OF THE GENERAL SECRETARIAT FOR GENDER EQUALITY (GSGE):**

1. The GSGE shall use the data and the results of ELSTAT surveys only for the purposes of the "Mechanism-Structure Monitoring Gender Equality, and acknowledge ELSTAT as the data source for the data and indicators it will produce.
2. The GSGE shall include in its publications a brief description of the data production process, stating the two parties; the wording of this description is to be agreed with ELSTAT.
3. For the purposes of this MoU a working group shall be set up, consisting of members from both organizations. The purpose of this working group is to propose and determine the format of the data and metadata transmitted to the GSGE by ELSTAT, as well as the frequency, time and mode of data transmission.

### **Duration of the Memorandum of Understanding – Time schedule**

This Memorandum shall enter into force upon signature by both parties and it shall be valid for four (4) years, when it shall be reviewed – assessed, and possibly its content will be adjusted for enhancing the effective and efficient operation of the national system of statistics on gender equality. The GSGE and ELSTAT shall be in close cooperation during this time period, in order to make the necessary adjustments in case of new information, new indicators, etc. Each one of the contracting parties may, at any time, terminate this Memorandum in written by means of a prior fifteen-day notice. ELSTAT has the right to terminate the Memorandum without any penalty and without any prior notice, in case the General Secretariat for Gender Equality fails to successfully fulfil its obligations under this Memorandum.

### **Modification / Termination of Memorandum**

Any modification or extension of the Memorandum shall be concluded only in written and only after the mutual agreement of the contracting parties. The deadline of the Memorandum can be modified after the joint decision of the contracting parties.
